ABOUT OUR PROJECT

The “Soft-Travel” project based on given information for travel and booking system. It help users to give all the travel cost information by specific travel spot and it's also help customers to connect with travel service provider for any kind of information. We make here a database, by this ways users able to booking travel by online. It is a good system to connect with travel service provider and also traveler. So it will be a good thing that is integrate travellers and service providers trust in one site. So that, everyone would be happy to work with clean services.

HOW OUR PROJECT WORKING

Database And Booking

Booking Verification

System Design for save and verifying data

full name

email address

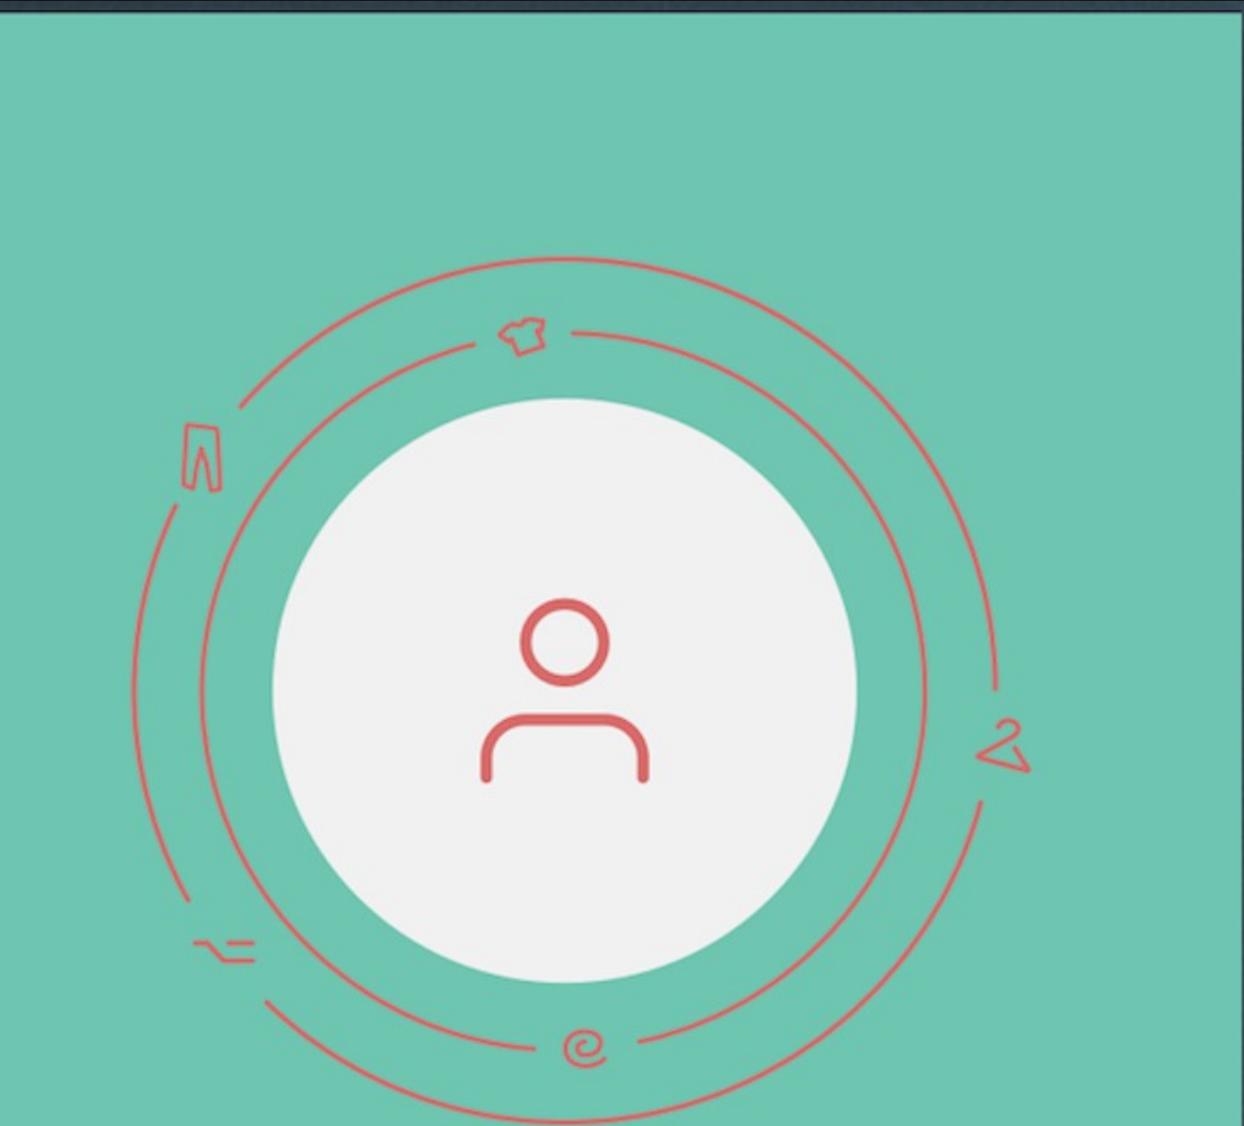

pick a username

set a password

submit

The interface features a central user icon with concentric arcs and arrows. Below it are four input fields: 'full name' (placeholder 't'), 'email address' (placeholder 'key'), 'pick a username' (placeholder 'tanvir12'), and 'set a password' (placeholder 'From this website'). A blue button labeled 'Other Passwords...' is positioned below the password field. At the bottom are large green 'LOGIN' and 'SIGN UP' buttons.

BOOKING DATA

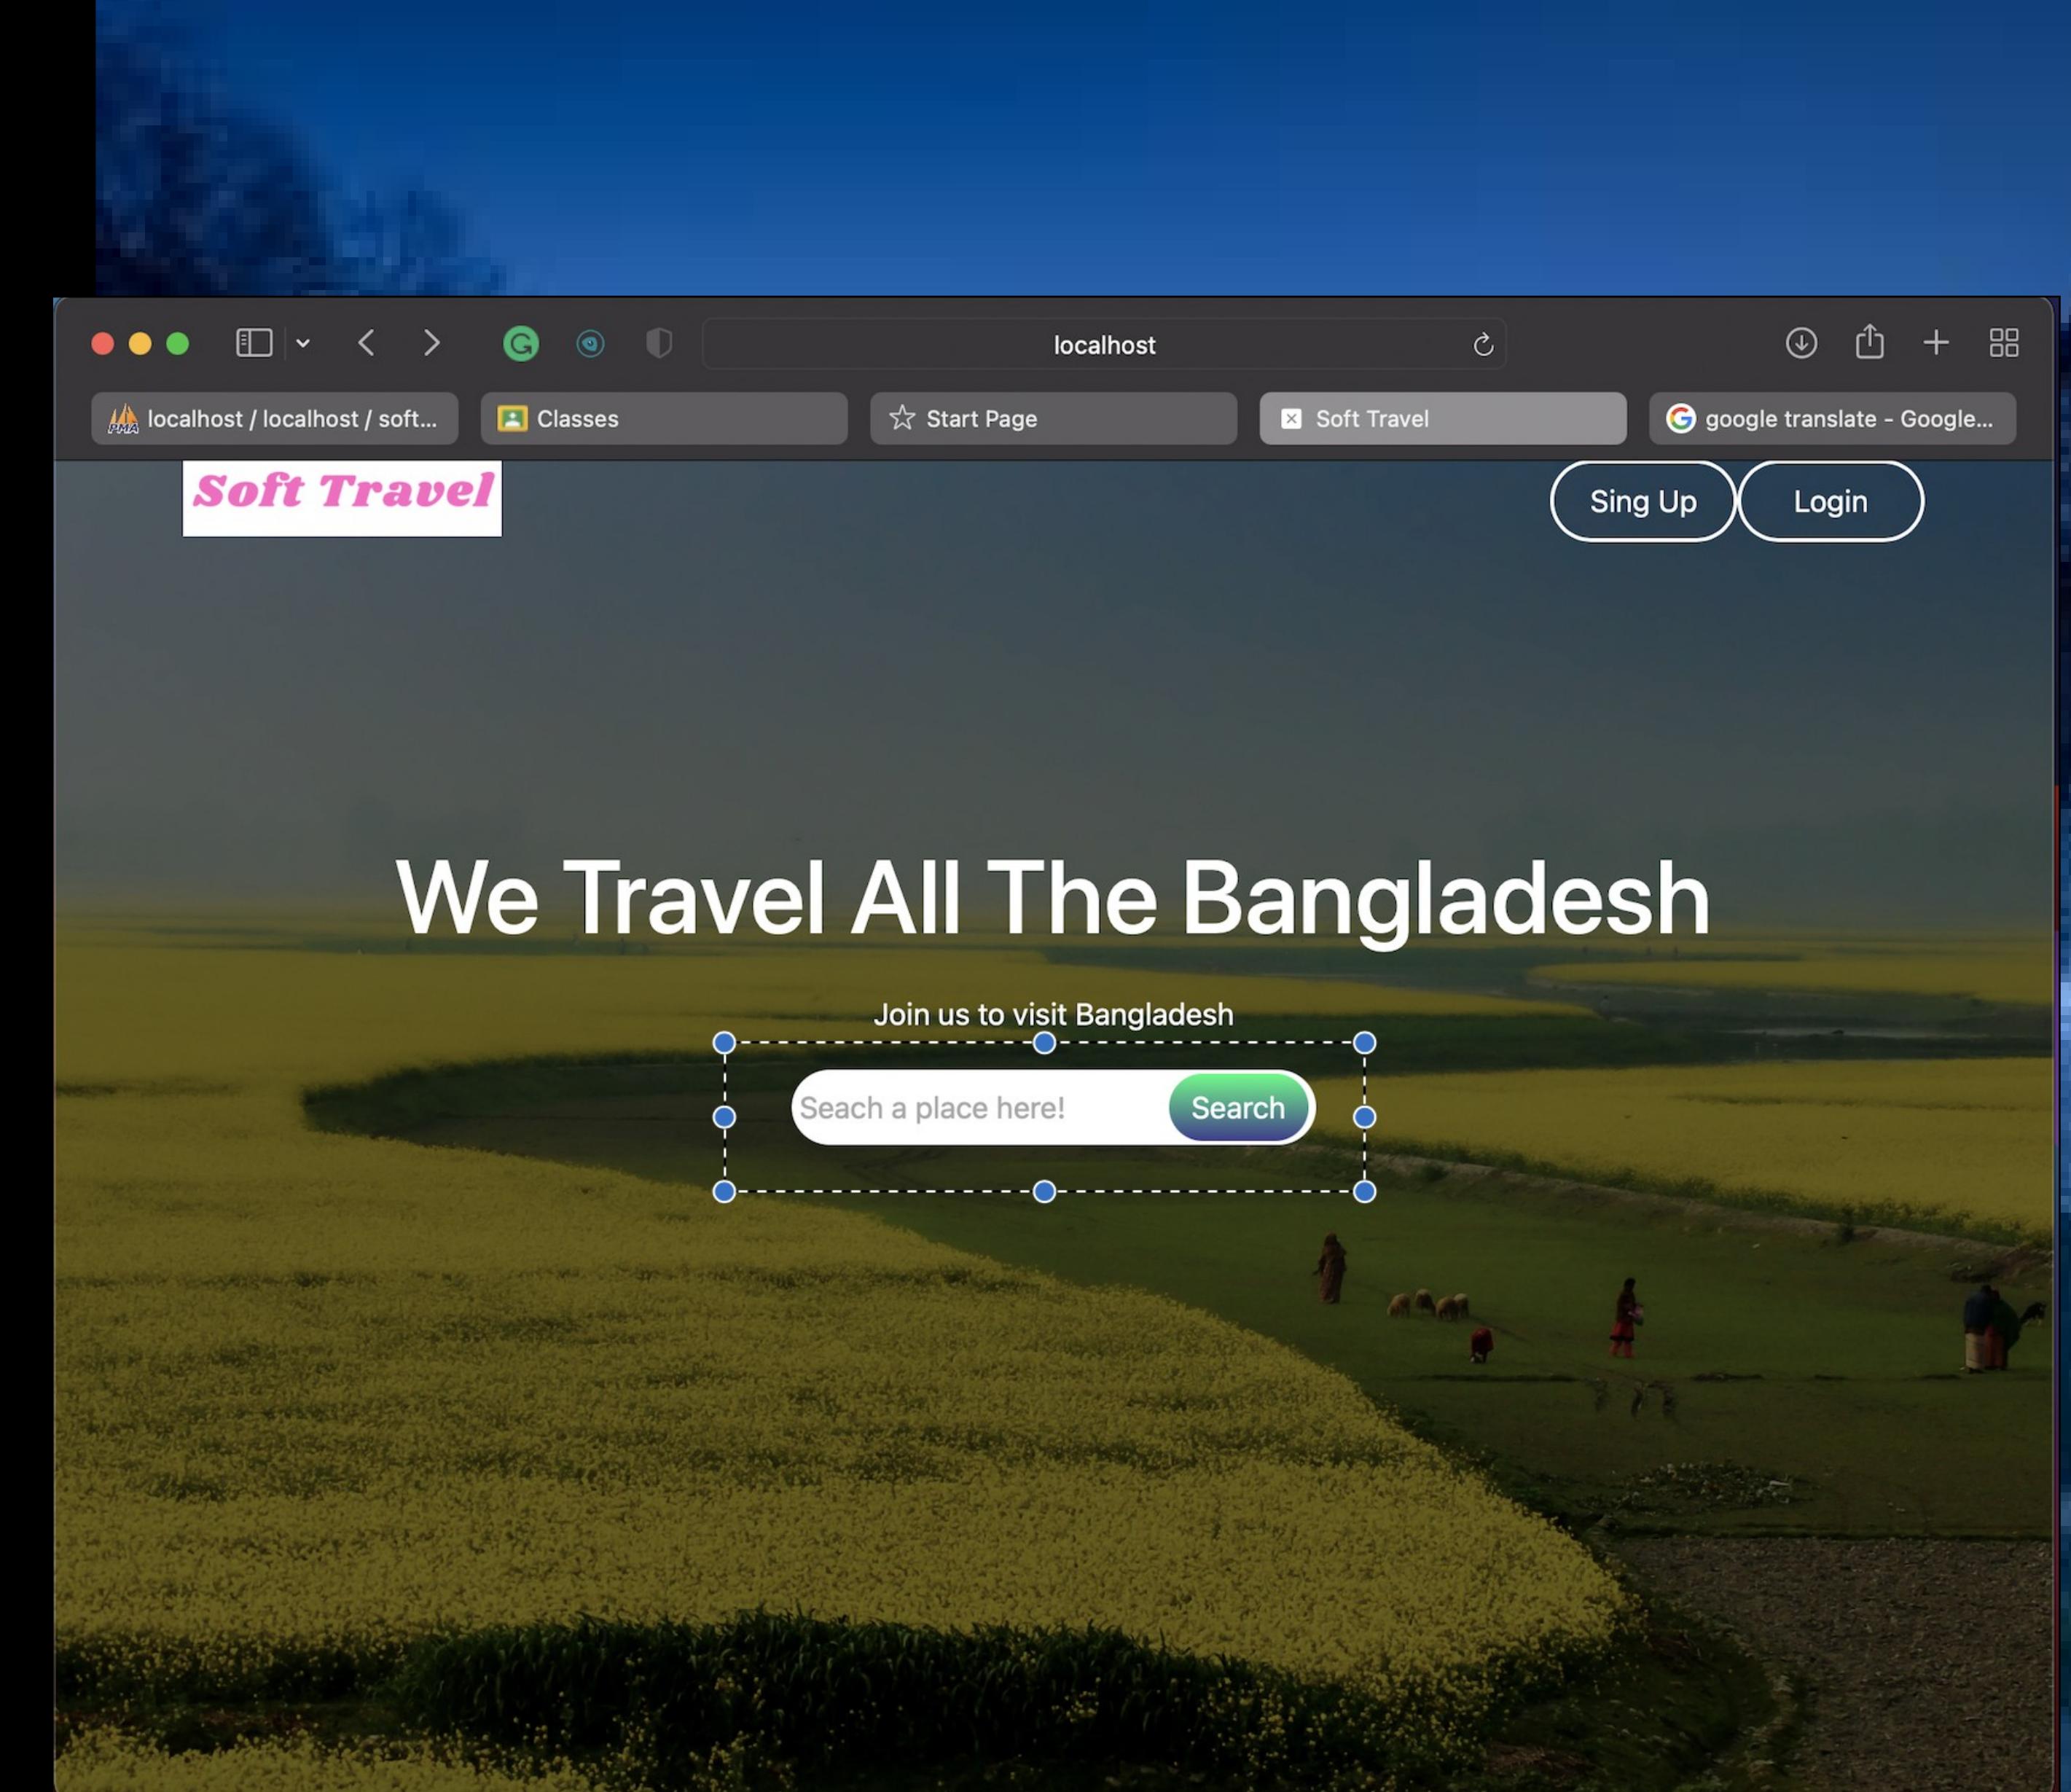

1. Call Our Contacts Number For Take A Token Of This Tour.
2. Also Out Stuff Tell About Team Number.
3. Fill All Of The Textbox By Given Data.
4. Click Book Now Button. Then Your Data Will Be Submitted.
5. By Verified This Data By Admin Our System Sent You A Mail.

FUTURE PLAN

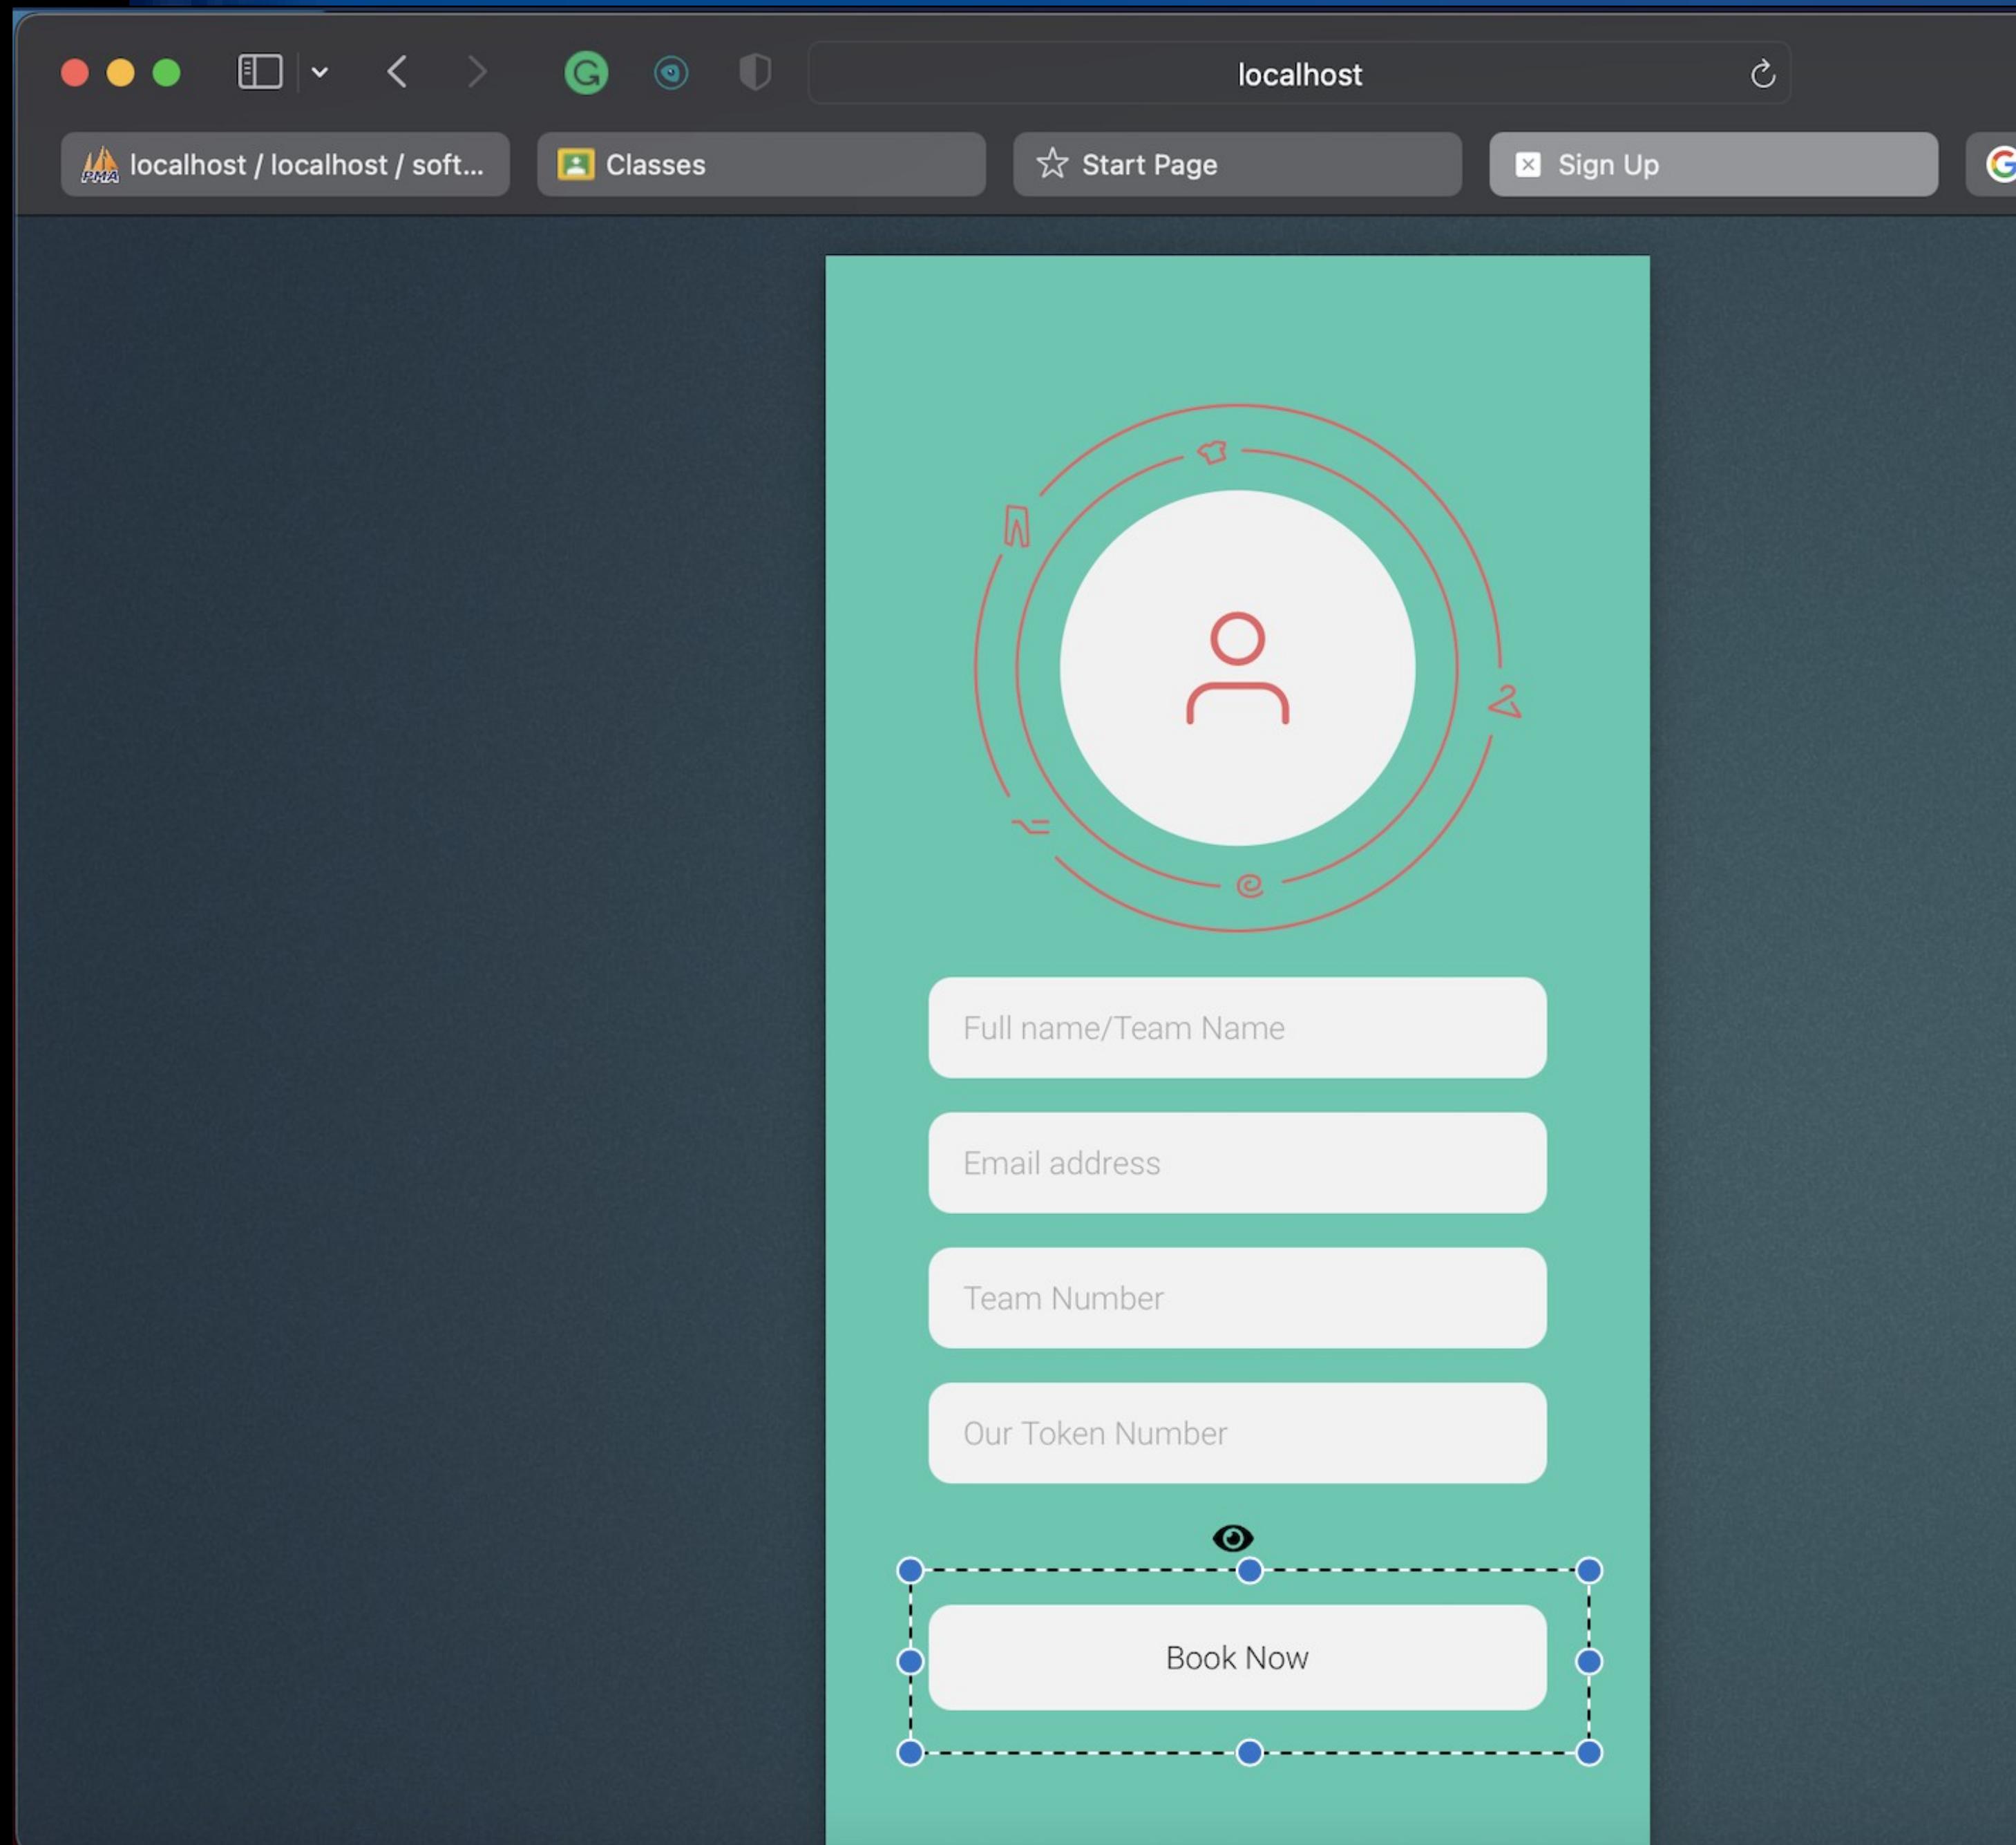

UPDATE SEARCH

- Our search area isn't fully updated. So we will update it when our customers will be increase . We would add here search system that search beautiful place in our country and give users information from wikipedia.

AUTOMETIC BOOKING SYSTEM

- Our project booking system isn't automatic yet. For booking user also need to call our staff for token number. For this features we need to update a algorithm like "Auto token generator by specific place" and then we build a system that automatic verify booking.

OTHERS UPDATE

- Update staff day by day if users will be increasing.
- We will continue to reduce the tour cost.
- Adding more tour destination day by day.
- Make our process more automatic and use-full.

**THANK
YOU**
